## Profile Summary

---

Experienced senior software engineer with over 7+ years of expertise in ASP.NET Core, MVC, Angular, and VB.NET. Proven track record of enhancing 30+ applications for optimal performance and delivering results through proficient software development and engineering. Experienced team leader with hands-on involvement in designing, developing, and optimizing high-performance applications. Proficient in a wide range of technologies, including C#, SQL, Entity Framework, Azure, and more. Successfully led pivotal projects such as the Oasis ERP Insurance Broker System in Saudi Arabia, United Arab Emirates, and Mauritius Island. Looking to leverage my skills and leadership experience to drive innovation and excellence in software development roles.

## Professional Experience

---

04/2019 – present

### **Team Leader, Oasis Computer Systems**

- Implemented and configured various software applications, collaborating with stakeholders to gather requirements and design solutions throughout the SDLC phases.
- Took ownership of projects, leading software development, project planning, and deliverable tracking.
- Applied problem-solving techniques to design, develop, and optimize high-performance software systems.
- Leveraged architecture vision to create scalable solutions.
- Conducted comprehensive system testing and user acceptance testing to ensure adherence to requirements.
- Cultivated strong relationships with stakeholders, including customers, partners, and internal teams.

01/2017 – 04/2019

### **Senior Software Engineer, Oasis Computer Systems**

- Collaborated with a diverse team to build functional and cohesive APIs, enhancing user experiences.
- Mentored and guided junior developers in adopting best practices and standards.
- Executed complex product analysis and development tasks with extensive research and analysis.
- Made design and technical decisions following industry standards and best practices.
- Delivered results through effective communication and problem-solving.
- Utilized ASP .Net, MVC 5.0, Core, C#.Net, Entity Framework, and Dapper to develop and integrate software solutions.

- Utilized Visual Studio and TFS for application development.

10/2015 – 01/2017

**Software Engineer**, *Oasis Computer Systems*

- Contributed to projects by taking ownership of tasks and providing technical support.
- Developed and maintained web applications using C#, .NET , MVC, and SQL technologies.

## Skills

---

**Excellent communication skills for effective collaboration and leadership.**

**Ownership and accountability for project success. | Software Implementation and Configuration.**

**System Testing and User Acceptance Testing. | Application Support and Troubleshooting.**

**Proficient in various technologies including:** (ASP .Net, MVC, C#, Entity Framework, Angular.)
