

Wajih Sami Abu Alawar

Profile

- I'm a Front End developer with more than four years of experience creating scalable and effective web applications.
- I worked individually and within a team on many projects with local and international companies.
- My core competences include React, Vue, Wordpress, HTML5, CSS3, Sass, media queries, JavaScript, JQuery, Git and GitHub.
- I love turning beautiful designs into usable websites that are responsive to various devices as well as being scalable.
- Good experience with SEO principles.
- Design a cross-browser compatibility websites & applications.
- Collaborate with other team members (Designers & back-end developers).
